# Maryland's Adult Consumers Rate Their Public Mental Health Services

**Consumer Perception of Care Survey  
2015**

## BACKGROUND

The Department of Health and Mental Hygiene’s (DHMH) Behavioral Health Administration (BHA) conducted a Statewide telephone survey to assess satisfaction with and outcomes of services provided by Maryland’s Public Behavioral Health System (PBHS). The Adult Consumer Perception of Care Survey was administered in Fiscal Year 2015 to a sample of adults who had received outpatient mental health treatment services and/or psychiatric rehabilitation services between January and December 2014. A total of **817** adults participated in the survey, representing **33%** of those contacted.

## RATING TREATMENT SUCCESS

Adult consumers were asked how they had improved as a direct result of the mental health services they received. Percentages below represent those respondents who “strongly agreed” or “agreed” with the following statements:

77%	I deal more effectively with daily problems.
73%	I am better able to control my life.
72%	I am better able to deal with crisis.
72%	I am getting along better with my family.
65%	I do better in social situations.
62%	I do better in school and/or work.
58%	My housing situation has improved.
57%	My symptoms are not bothering me as much.
73%	I do things that are more meaningful to me.
73%	I am better able to take care of my needs.
69%	I am better able to handle things when they go wrong.
63%	I am better able to do things that I want to do.
73%	I am happy with the friendships I have.
77%	I have people with whom I can do enjoyable things.
65%	I feel I belong in my community.
77%	In a crisis, I would have the support I need from family or friends.

## RATING SATISFACTION WITH SERVICES

Adult consumers were asked to rate their overall satisfaction with the mental health services they received. Eighty-five percent (85%) of the respondents “strongly agreed” or “agreed” with the statement, “Overall, I am satisfied with the mental health services I received.” Consumers were also asked to rate their satisfaction with specific aspects of the outpatient mental health treatment and psychiatric rehabilitation services they received. The table below shows survey findings, where percentages represent respondents who “strongly agreed” or “agreed” with each item, using a 5-point scale.
