

## Notification of Consumer Arrest

The DataLink project matches data between local jails and the Public Mental Health System in order to improve continuity of care and enhance release planning as appropriate.

The below-named individual was recently arrested and has an active authorization for mental health services with your organization. It is expected that you will use this information in treatment planning with the client and to coordinate care with the jail. You may use the resources listed at the end of this form or contact your local Core Service Agency for assistance.
