The pharmacies on this list have been identified as currently stocking naloxone by the pharmacies' corporate offices. DHMH does not independently verify naloxone availability generally or of specific naloxone products. Individuals

Click on the "County" Name to be taken to the list of pharmacies in that county.

Clicking on the County Name to find a Google Map requires that you have internet access. Once you click on the link, you will be taken to a Google Map that displays the pharmacies listed in this directory. If you do not have access to the internet, this feature will not work. In order to look up more than one county, you will need to have multiple tabs open in your browser. Google Chrome is recommend.

Maryland Overdose Response Program Statewide Naloxone Standing Order

Background

Naloxone is a prescription medication indicated for the reversal of respiratory depression or unresponsiveness due to opioid overdose. The Maryland Overdose Response Program (ORP) was established by the Department of Health and Mental Hygiene (DHMH) in 2013 to increase access to naloxone to reduce opioid overdose deaths throughout the state. The ORP allows non-medical community members to be trained in overdose recognition and response. DHMH authorizes organizations to provide trainings and certify individuals. Certificate holders may be prescribed and dispensed naloxone, either directly or through a standing order, and administer it to someone believed to be experiencing opioid overdose. Under state law, a physician who is employed by DHMH may issue a statewide naloxone standing order, which allows for pharmacists to dispense naloxone to ORP certificate holders in the absence of a person-specific paper or electronic prescription.¹

Statewide Standing Order

This standing order is issued by **Howard Haft, M.D. (NPI # 1639132152), Deputy Secretary for Public Health Services, DHMH**. The standing order authorizes any Maryland-licensed pharmacist to dispense naloxone to any ORP certificate holder in accordance with the conditions of this order, enumerated below.

Upon verification of an individual's ORP certificate, dispense **two (2) doses** of naloxone hydrochloride and necessary paraphernalia for administration. The specific naloxone formulation shall be selected from the list below in accordance with the certificate holder's preference or training to administer a particular formulation.

1. For intranasal administration

- 2mg/2mL single-dose Luer-Jet prefilled syringe. Include one luer-lock mucosal atomization device (MAD 300) per dose dispensed. Include face shield for rescue breathing if available.

Directions for use: Spray 1 mL in each nostril. Repeat after 3 minutes if no or minimal response.

Or

- NARCAN® 4 mg/0.1mL nasal spray. Include face shield for rescue breathing if available.

Directions for use: Administer a single spray of NARCAN® in one nostril. Repeat after 3 minutes if no or minimal response.

2. For intramuscular injection

- 0.4/mL in 1mL single dose vials. Include one 3cc, 23g, 1" syringe per dose dispensed. Include face shield for rescue breathing and alcohol swabs if available.

Directions for use: Inject 1 mL IM in shoulder or thigh. Repeat after 3 minutes if no or minimal response.

3. For intramuscular or subcutaneous injection

- EVZIO® 0.4mg/0.4mL auto-injector, #1 Two-pack

Directions for use: Follow audio instructions from device. Place on thigh and inject 0.4 mL. Repeat after 3 minutes if no or minimal response.

I declare this standing order as a statewide prescription for the dispensing of naloxone.

A handwritten signature in black ink, appearing to read "Howard Haft".

Howard Haft, M.D., Deputy Secretary for Public Health Services, DHMH

Effective Date: December 14, 2015

Expiration Date: December 14, 2017
