Bootleg Fentanyl

• These opioids may be in your drugs — in pills, heroin, cocaine, crystal meth etc.
• You can’t see it, smell it, taste it or test for it.
• There is a risk of an opioid overdose, even if you are not using opioids.

If you use drugs:

• Do not use alone.
• Start with a small amount.
• Watch and wait before next person uses.
• Have naloxone ready.

An opioid overdose is a medical emergency:

• Call 911.
• Administer naloxone.
• Assist victim.
